HAMZA TARIQ

FULL STACK DEVELOPER

ABOUT ME

"Aspiring front-end developer proficient in React.js, HTML, CSS, Tailwind CSS, JavaScript, and Bootstrap. Committed to launching a tech career with a strong foundation in web development and a passion for staying current. Eager to contribute collaboratively and make a positive impact."

PROJECTS

- ### MERN E-Commerce Platform: Seamless Online Retail Solution

Engineered a comprehensive E-Commerce platform leveraging the MERN stack. Designed and implemented a user-friendly interface, incorporating features such as product listings and secure user authentication. Utilized MongoDB for efficient data management. Demonstrated proficiency in full-stack development, ensuring a scalable and responsive solution for online retail.

- ### Employee Management System using Django

Engineered an Employee Management System in Django, ensuring secure authentication and efficient database design. Implemented key features like CRUD operations for optimized HR processes and conducted thorough testing, showcasing proficiency in web development and system refinement.

- ### Dynamic CV Builder: Crafting Professional Resumes with JavaScript

Developed a dynamic CV Maker project, showcasing proficiency in JavaScript. Designed an intuitive web application that allows users to create and customize professional resumes effortlessly. Implemented features for easy data entry, real-time preview, and downloadable resume generation.
